

The Hook-Up Reviews:

“Showed the importance of telling victim you believe them. No matter what, he or she is still a human and should not be treated that way. I must intervene whenever I can because it’s a hideous crime against a person.” - **Sailor, Great Lakes Naval Station**

“Cut right to the core of the issue and put it into a language students could understand and relate to.” - **Erin Schaefer, Graduate Assistant – St. Cloud State University**

“This did not feel like a lecture- interactive, has visuals. It was very thorough. Covered everything from language and sexual assault relation to predator’s cycle.” - **Sailor, Great Lakes Naval Station**
